TANTALIZERS PLC SIGNS 5-YEAR OFFTAKE AGREEMENT WITH HARVESTER FISHERIES LLC (USA)
FOR EXPORT OF PREMIUM WILD CAUGHT TIGER PRAWNS AND PURE SHRIMPS

Tantalizers Plc, Nigeria's emerging foodtainment powerhouse, is proud to announce the signing of a landmark five-year tripartite Offtake Agreement with its owned subsidiary, Tantalizers Fisheries Limited, and Harvester Fisheries LLC, a U.S.-based seafood importer and distributor headquartered in New Bedford, Massachusetts.

Under the agreement, Tantalizers PLC and Tantalizers Fisheries Limited (the Sellers) will supply Harvester Fisheries LLC (the Buyer) with agreed minimum annual quantities of wild caught tiger prawns and pure shrimps over a five-year period. The deal, valued in multi-million U.S. dollars, represents a major step in Tantalizers' strategic expansion into the global seafood export market.

Tantalizers Fisheries Limited, which operates within a designated Free Trade Zone in Nigeria, is a fully export-oriented enterprise engaged in the harvesting, trawling, processing, and exportation of wild-caught shrimp and prawn products in compliance with global quality and food safety standards. The company's operations are designed to meet international demand for sustainable and traceable marine products.

Speaking on the development, Robert Speijer, the Group Managing Director of Tantalizers PLC, stated:

"This agreement marks a significant milestone in our diversification strategy and underscores Tantalizers' evolution from a purely quick service restaurant brand into a global food, retail, and entertainment group with a strong export footprint. The partnership with Harvester Fisheries LLC strengthens our global supply chain integration and positions Nigeria as a credible source of high-quality seafood for the North American market."

Harvester Fisheries LLC, based in New Bedford, Massachusetts — one of America's largest fishing ports — specializes in the importation and distribution of high-grade seafood products to retail chains, restaurants, and institutional buyers across North America. The company has expressed strong confidence in Tantalizers Fisheries' production capacity, quality assurance systems, and adherence to international regulatory standards.

The agreement following extensive negotiations and due diligence by both parties, culminates in a shared commitment to sustainable growth and cross-border partnership and also supports Tantalizers' broader objective of contributing to Nigeria's non-oil export growth and blue economy development.
